

A man with a beard and dark hair, wearing a black shirt, is seated on a black leather piano stool, playing a black grand piano. The piano is open, and its lid is propped up. The background is a dimly lit stage with blue and gold lighting, creating a cinematic atmosphere. The word "LEGENDS" is written in a large, ornate, gold-colored font in the upper left corner.

LEGENDS

ICONIC MUSIC. REIMAGINED.

LIVE • CINEMATIC • IMMERSIVE

CREATED BY ADRIAN ANTOINE

What is LEGENDS?

A scalable music entertainment concept

LEGENDS reimagines iconic music through live performance, original arrangements, cinematic presentation and immersive possibilities.

Original archival vocals may be incorporated selectively when they add artistic value, but the concept and live experience do not depend on them.

01

Music First

Live performance and original arrangements remain at the center of every production.

02

Cinematic Worlds

Curated visuals, lighting and multimedia expand the emotional impact of timeless music.

03

Built to Scale

Designed to adapt from intimate rooms to theatrical, resort and immersive experiences.

Proven Digital Traction

Validated by organic YouTube performance

The online audience provides credible evidence of attention, retention and conversion — without presenting the live format as an established touring product.

Top Performing Repertoire

One concept. Multiple iconic artists.

Digital performance supports the conversation with partners; it does not substitute for live-market validation.

Why LEGENDS Works

Recognizable music. A fresh point of view.

01

Familiar Music

Audiences connect immediately with songs and artists they already know and love.

02

Fresh Experience

Not an imitation, but a fresh reinterpretation through live performance, original arrangements and contemporary production.

03

Emotional Impact

Nostalgia and discovery create an emotional connection that can reach audiences across generations.

FLEXIBLE FORMAT
